

Project Title: To Supply Leftover Food to Poor

Category: Salesforce

Skills Required: Salesforce Developer

Project Overview

1. Project Objectives and Goals

This project aims to develop a Salesforce-based platform to efficiently redistribute leftover food from restaurants, grocery stores, and events to underprivileged communities. The system aims to minimize food waste while addressing hunger.

2. Detailed Description of Implemented Features

Custom Objects :

1. Drop-off Point :

- **Purpose :**

The Drop-off point object captures essential details about location where food is dropped off. This helps in tracking and managing food distribution points effectively.

- **Fields :**

- Drop-off point name : A text field representing the name of the drop-off point.
- Location Details : A text field for additional details about the drop-off point location.
- Distance : A number field that records the distance from the drop-off point to the delivery area.

- Venue: A lookup relationship field linking to the venue object to provide a connection between drop-off points and venues.
